

**DNB publishes new BSI taxonomy version 1.0.1**

In July DNB published a new Balance Sheet Information (BSI) taxonomy version 1.0.1. You can find the taxonomy on the [webpage](#) of the “Digitaal Loket Rapportages”, beneath the header “downloads”. Depending on whether you are a monthly or quarterly reporter, your first report through the DLR with this taxonomy will be for the December 2018 or the fourth quarter of 2018 reporting period. Version 1.0.1 contains the following changes compared to version 1.0:

Tables

- T9007HK1: cells on rows 010, 020 and 040 to 070 for columns 140 and 150 are now opened for reporting
- T9013HK5: on Z-axis country hierarchy added

Data Dictionary

- Trailing spaces in some labels are deleted (Antarctica and Brunei in dom030)
- Error in member code corrected (mem019 changed in mem018 for dnb\_mem018 in domain031)

Package:

- Latest [www.eurofiling.info](http://www.eurofiling.info) package used
