A12	**EBA Transparency Exercise**	EBA / ECB	SI's	The EU-wide transparency exercise provides detailed bank-by-bank data on capital positions, risk exposure amounts and asset quality.	Annually	Q3 2021 Q4 2021 Q1 2022 Q2 2022	23-9-2022	October 2022	The EBA aims to promote a greater understanding of capital positions and exposures in the EU banking sector and foster market discipline across the Single Market. In view of the postponement of the EU wide stress test due to Covid-19, the EBA will carry out an additional EU-wide transparency exercise in order to provide updated information on banks' exposures and asset quality to market participants.	The Transparency Exercise is based on quarterly data instead of semi-annual data as before. For more information: Click here
A13	**G-SIB assessment exercise [UPDATE]**	BCBS/ EBA	All banks with a leverage ratio exposure measure exceeding 200 billion euros.	The end-2020 template can be found at the BIS website. The template covers variables used to calculate the GSIB score and auxiliary/memorandum items potentially used to assess and monitor the methodology and future changes thereof.	Annually	31-12-2022	End of January 2023	1st round 1-5-2023	The Basel Committee on Banking Supervision is conducting this data collection exercise as input into the methodology to assess the systemic importance of banks in a global context. The 12 indicators are aggregated and used to calculate the scores of banks in the sample. Banks above a cut-off score are identified as G-SIBs and are allocated to buckets that will be used to determine their higher loss absorbency requirement.	See Commission Delegated Regulation (EU) No 1222/2014, Article 5 and Article 131(12) of Directive 2013/36/EU. For extra information on the BIS website: Click here

	ADDITIONAL DATA REQUESTS PER 29 NOVEMBER 2022									
A19	**Information on Identified Staff**	DNB	LSI banks	Data on the number of Identified Staff	Annually	2022	Q2 2023	31-08-2023	In addition to the annual EBA data requests, DNB collects data on the number of Identified Staff. With this annual exercise DNB wants to decrease ad hoc data requests on this matter.	This report will be requested via Excel separately. A different reporting obligation will be visible in DLR.
A20	**Risk Assessment Questionnaire**	EBA	Selected SI's	Qualitative questionnaire on the bank's opinion regarding the main risks and vulnerabilities in the EU banking sector.	Semi-annually	Not specifically mentioned. Questionnaire mostly contains qualitative questions. In some cases a time horizon is mentioned (e.g. 6-12 months).	End of July 2022	9-9-2022	The EBA conducts semi-annual Risk Assessment Questionnaires (RAQs) among banks and market analysts. The RAQ results are published together with the EBA's quarterly Risk Dashboard and will be used for the yearly Risk Assessment Report (see https://www.eba.europa.eu/risk-analysis-and-data/risk-dashboard and https://www.eba.europa.eu/risk-analysis-and-data/risk-assessment-reports)	Banks in scope will be contacted directly by email by the EBA.
A22	**Single Resolution Fund Report**	SRB	All banks	Data about institution's size and risk profile is collected on an individual level - by means of an excel template (XBRL based).	Annually	31-12-2021	1-11-2022	13-1-2023	The data is used by SRB to calculate the contribution per institution to the Single Resolution Fund. The Single Resolution Fund may be used to ensure the effective application of the resolution tools and powers.	See the SRB website: Click here
A23	**Supervisory Fees**	ECB	All banks except non EEA branches	The supervisory fee is the amount each supervised bank pays annually to the ECB to finance the ECB's costs related to supervisory tasks and responsibilities. Less significant banks are directly supervised by their relevant national supervisor and therefore pay a lower supervisory fee to the ECB.	Annually	2021	n/a	11-11-2022	The ECB is responsible for the effective and consistent functioning of the Single Supervisory Mechanism in its entirety, i.e. of the significant banks that it directly supervises and of the less significant banks that it indirectly supervises. All supervised banks are therefore obliged to pay. The procedure has been changed in December 2019, please see the ECB pressrelease.	The ECB will reuse existing supervisory data to calculate fees, removing the need for a separate data collection process for most banks. Two categories of banks must still provide their fee factors via a separate collection process, for details see: ECB website. Fee debtors that intend to exclude assets and/or risk exposure amounts of subsidiaries established in non-participating Member States and third countries have to notify (online) the ECB of their decision at the latest by 30 September of the year concerned. See link above for more details, also for reporting instructions and
A24	**Triennial Derivatives**	BIS	Selected banks	Triennial Derivatives: turnover in foreign exchange spot markets, as well as foreign exchange and interest rate OTC derivatives markets.	Triennially	April 2022.	November 2021	15-6-2022	The 13th Triennial Central Bank Survey of foreign exchange and over-the-counter (OTC) derivatives markets will take place in 2022. It aims to obtain comprehensive and consistent information on the size and structure of global foreign exchange and OTC derivatives markets. The results are intended to increase the transparency of OTC markets and to help central banks, other authorities and market participants monitor developments in global financial markets. The reporting exercise will take place over April 2022	Banks in scope will be informed
A29	**Additional Liability Report [UPDATE]**	SRB / DNB	Selected SRB banks (SI's and cross-border institutions)	The report is requested from SRB and DNB in order to perform resolution activities. Excel format.	Annually	31-12-2022	November 2022	31-3-2023	The aim of the Additional Liability Report is to collect on a temporary basis the data points related to the stock of eligible TLAC and MREL (total amount and internal) necessary to set intermediate MREL targets in the 2022 resolution planning cycle. Banks will be contacted by e-mail. Banks will be informed seperately about their deadline for submission.
A32	**Additional template on Article 458 (2) macroprudential risk measure**	DNB	Selected banks (IRB banks)	The template is requested to provide information on the impact of RWA based on LTV buckets	Semi-annually	30-6-2022 31-12-2022	1-1-2022	11-8-2022 11-2-2023	This report aims to provide DNB with information on the additional capital that IRB-banks hold for residential real estate mortgages as a result of the introduction of the minimum floor for risk weights as per 1 January 2022. The data allows DNB to make an assessment of the additional capital that banks hold and makes a better-informed evaluation possible of the appropriateness of the measure and the extent to which the measure addresses systemic risk. Only banks that have to apply the measure are requested to complete this ad-hoc data report (which are all banks using internal models to calculate their risk weighted assets and have their registered office in the Netherlands).	On 11 October 2022, DNB announced the two-year extension of the measure in its Financial Stability Report. With the extension, the measure is in place until 30 November 2024. The second reference data of data for 2022 has therefore been changed from 30 November 2022 to 31 December 2022.
A33	**Corporate and FI loan level data**	DNB	Selected LSI's	The data is requested in the form of a loan tape and should be compiled with loan level data on the corporate and FI portfolios	Monthly	Month-end data	6-4-2020	The 15th of each month	The goal of this exercise is to investigate the potential impact of Covid-19 in the corporate and financial institution (FI) portfolios.
