

#### eHerkenning

You can log into the Digital Reporting Portal (DLR) using eHerkenning. This is a safe and reliable login system that allows you to arrange your affairs securely online.

#### Application

You can apply for eHerkenning with various providers. Please note that you need an assurance level 3 login token to submit the CFI benchmark report. You also need to apply for authorisation for the "DNB Reports" service from your eHerkenning provider. This is the same as previously for the E-line Balance of Payment portal. Please refer to the eHerkenning website (in Dutch only) for more information.

#### Authorisation

Your institution can authorise another organisation to submit reports on its behalf with an eHerkenning chain authorisation.

Please note: we no longer offer the "representative" function. Please be sure to apply for the required eHerkenning and chain authorisations in good time, given the lead times involved, and remember to authorise relevant staff members.
