2 Add ShareFile site to your favorites

- Open your internet browser and enter the following address: <https://sharefile.dnb.nl>
- A login page will appear
- The url changes immediately. Make a favorite, the URL will be: <https://sharefile.dnb.nl/vpn/tmindex.html>. This URL needs to be edited!

Put the favorite in **edit mode and remove** the last part of the **URL** (`vpn/tmindex.html`) so that <https://sharefile.dnb.nl> remains.

If you do not delete the last part of the URL you may get the following problems:

- You have to fill in your username and SMS more than two times
- You will not receive a SMS
- You will not see the folder navigation pane, go to 8.3

8.1 Always being returned to the login screen

The URL in the favorite may not be correct, see the solution under 8.3

8.2 Time-out error after login

After logging into ShareFile you will receive an error (For example, HTTP / 1.1 Internal Server Error 43549). This is a time-out message: you had the url on screen for more than 3 minutes without logging in.

Solution: Close the tab in the browser and reconnect to sharefile.dnb.nl

You do not see the name **Folder** and **Shared Folders** in the navigation menu (left on the screen).

The URL in the favorite is not correct

If you use a favorite to login in ShareFile check the properties of the **URL**.

Remove the last part of the URL (vpn/tmindex.html) so that only <https://sharefile.dnb.nl> remains.

→ After adjusting this, delete your cookies and files in the browser

- Go in Edge Chromium to the Settings (...) > History > Clear browsing data

Make sure that the following options are selected:

- Cookies and website data
- Cached images and files

→ Click on the button **Clear Now**

→ After that close your browser and open it again

→ Open ShareFile
