NL ECMS MCG: question

Organisation CTP2A

- Several options under investigation
- 'phased approach'

NL ECMS MCG: upcoming Readiness Reporting Cycle

Early May, market participants will receive a questionnaire for the 10th ECMS readiness reporting cycle. The current milestones for the 10th cycle, with cutoff 29 May 2023, are IAD8, NCOPP1, IST2, UTAE1, NCOPP2, UTAPP1.

Current milestone	Stakeholder involved	Deadline for milestone completion
IAD8 (Testing of internal applications completed)	CPTY	08/03/2023
NCOPP1 (Network Connectivity tests on the Pre- Production environment are started)	NCB, CSD/TPA CPTY	13/03/2023 17/04/2023
IST2 (Internal Staff Training prior to Testing is completed)	CSD/TPA	17/05/2023
UTAE1 (User testing activities (for NCB & CSD) on EAC test environment are started)	NCB, CSD/TPA	22/05/2023
NCOPP2 (Network Connectivity tests on Pre- Production environment are completed)	Community (NCB, CSD/TPA, CPTY)	26/05/2023
UTAPP1 (User testing activities (NCB, CSD) on Pre-Production test environment are started)	NCB, CSD	29/05/2023

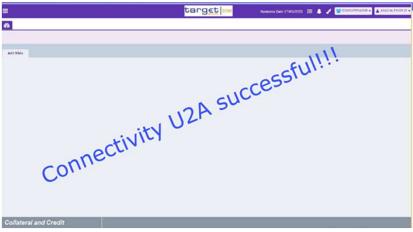

Start of connectivity test by market participants – progress made

Start of connectivity test by market participants

All parties have been setup and can start their connectivity test in UTEST via U2A Reminder: the test is successful if you reach this page

A2A is being tested by one counterparty.

Once successful, other counterparties, intending to connect to ECMS via A2A may start A2A connectivity test.

Project Progress and input from market participants

DeNederlandscheBank EUROSYSTEEM

10

Project Progress and input from market participants

- Problems with the Pre-Prod UTEST environment solved
- After submit, no landing page (Incident 4CB)
- No ECMS tile, please check DN's provided

Euroclear service offering post ECMS

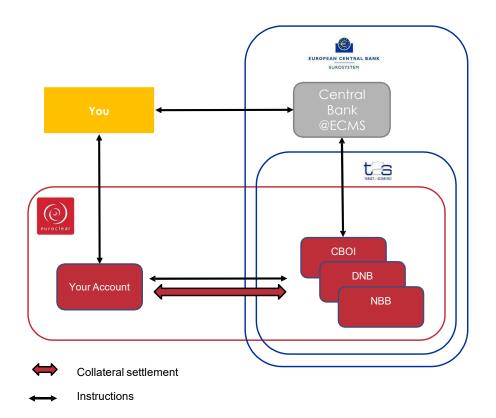

12

RESTRICTED TO participants to the meeting

Monetary policy operations- bilateral settlement Continuity of service level and scope of collateral

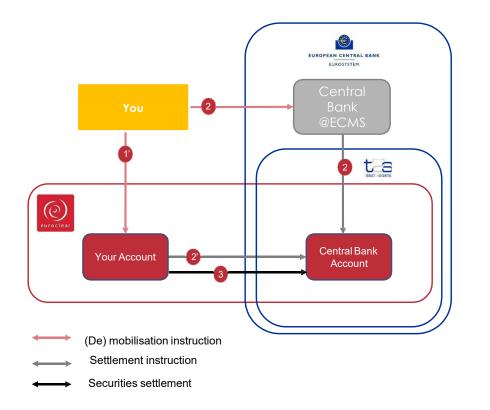

- The National Bank of Belgium, De Nederlandsche Bank and the Central Bank of Ireland collect and hold collateral in EB CeBM either as a Home Central Bank or as a Correspondent Central Bank for the benefit of other NCBs, in the latter case under the Correspondent Central Bank Model.
- Scope of securities
 - ESCB-eligible assets for which Euroclear Bank has a direct Eurosystem-eligible link: OeKB (Austria), NBB-SSS (Belgium), VP Securities (Denmark), Euroclear Finland (Finland), Euroclear France (France), CBF (Germany), BOGS (Greece), Monte Titoli (Italy), LuxCSD (Luxembourg), Euroclear Nederland (the Netherlands), CDCP (Slovakia) and KDD (Slovenia)
 - ESCB-eligible assets for which Euroclear Bank is Issuer CSD: Eurobonds and Irish bonds
- You will have the possibility to test in these flows as from <u>20 November 2023</u> in our pre-production environment

RESTRICTED TO participants to the meeting

Monetary policy operations – bilateral settlement How to instruct ?

#

You send a mobilisation (or demobilization) instruction to ECMS either through an STP ISO 20022 1 message or via the ECMS graphical user interface (GUI). You send a free of payment external instruction to Euroclear (ISO 15022 or 1' Easyway), with the BIC code 'MGTCBE2SXXX' in Place of Settlement Field, and, with the 5-digit Euroclear code or the BIC code of the Central Bank in the receiving/delivery agent field ECMS validates the receipt (delivery) instruction and sends a matching 2 receipt (delivery) instruction to T2S Euroclear transfers your instruction 2' to T2S Collateral is transferred to the Central Bank in EB T2S (Collateral is 3 transferred to your account in EB)

Step for collateral mobilisation

(demobilisation) settling in EB

RESTRICTED TO participants to the meeting

What does this means for you

All interactions with Euroclear happen **as today**: through Easyway screens or ISO15O22 messages

No need to develop ISO20022 settlement towards T2S

Need to send the matching mobilisation or demobilisation request to ECMS (1) either through an STP ISO 20022 message or via the ECMS graphical user interface (GUI).

16

The scope of collateral you can use is identical to today's possibilities

euroclear

Introducing Central Bank Access

The interaction with Bilateral processes makes **a larger array of central banks accessible** than the use of Triparty. Central Bank Access will enable access to:

| DNB PUBLIC |

RESTRICTED TO participants to the meeting

Central Bank Access

#	Step for collateral mobilisation settling in EB/ESES
1	You send a unlilateral Triparty instruction to Euroclear
2	Euroclear selects eligible collateral on the your account
3	Euroclear creates a delivery settlement instruction from your account to the relevant NCB account
4	Euroclear sends the necessary receipt settlement instruction to ECMS, under POA
5	ECMS validates the delivery instruction and sends a matching receipt instruction to T2S
6	Collateral is transferred to the Central Bank

RESTRICTED TO participants to the meeting

What does this mean for you?

All interactions with Euroclear happen **as today**: through Triparty instructions and reports

No need to develop ISO20022 settlement towards ECMS

Increased funding capacity in case of coupons:

Automatic substitution over record date no longer required
Any reversals handled by ECMS

19

Triparty reuse of collateral not available towards the NCB

NL ECMS MCG

Links to useful documents for connectivity testing

On the ECB website ECMS - Professional use

- ECMS info pack user testing and migration
- <u>TARGET Service Connectivity Guide v2.0</u>
- <u>ECMS user testing terms of reference for pre-production environment (to be updated)</u>
- ECMS catalogue of messages and credit claim files (europa.eu)

SWIFT MyStandards

- ECMS actors that interact with the ECMS via A2A can request access to the ECMS group in the <u>MyStandards</u> web application.
- CPTYs can verify/test the compliance of message versions in the Readiness Portal, with specifications provided in MyStandards.

The portal is a web application built on top of MyStandards.

- Tests with the MyStandards Readiness Portal neither require nor verify the connectivity via ESMIG.
- MyStandards Readiness Portal neither allows to reach nor test the ECMS.
